Energy Saving Tips

Be Smart. Save Energy.

In warm months, set the thermostat between 78 to 80 degrees when home and 5 to 10 degrees warmer at night or when you are not home.

In cold months, set the thermostat to 68 degrees when home, and then back to 55 to 68 degrees when unoccupied.

Unplug your televisions while on vacation. Most new sets draw power even when turned off.

Install electrical outlet and switch plate insulation.

Vacuum your refrigerator coils underneath and in the back. Check that no obstructions are present as the coils need air space to work.

Make sure food is cooled and covered before it goes into the refrigerator.

Turn off lights, appliances and electronics such as a computer when not in use.

Use LED bulbs instead of incandescent ones. Regular bulbs use most of the electricity to generate heat, so use care when changing bulbs.

Online at nvenergy.com or call (844) 343-3719

At any of our authorized Shop & Pay locations

By phone: (800) 253-8084 (debit/credit card)

By mail: PO Box 30150, Reno, NV 89520-3150

Customer Assistance: Office Address- 6226 West Sahara Ave. Las Vegas, NV 89146

If you wish to dispute any bill, charge, or service, please contact NV Energy Customer Service at: (702) 402-5555 or (800) 331-3103 Toll Free 24/7, excluding holidays we will promptly investigate the matter However, to avoid termination of service, all charges must be paid during the investigation period. If you are not satisfied with our final decision, you may contact the Public Utilities Commission (702) 486-2600, Online at puc.nv.gov or at 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

Additional Information

Understanding Your Bill: Your bill has a lot of information and terms you may not have heard before. For definitions of all charges and taxes, please visit www.nvenergy.com/home/customercare.

Rules and Regulations: Rules, regulations, and rate schedules are available for public inspection at nvenergy.com/rates.

Payments & Due Date: Bills for service are rendered and due monthly by the due date. Your bill becomes past due on the next meter read date, at which time a 1.5% late fee is applied. All payments made by check authorize NV Energy to initiate an electronic debit. Checks will not be returned and funds may be withdrawn the same day. Please make checks payable to NV Energy.

Payment Arrangements: If you have difficulty making a payment, we are here to help. Give us a call so we can review all the options available to assist you.

Interruption in Service: NV Energy may issue a termination of service notice and may require a security deposit for delinquent payments.

Good Pay Forgiveness: Life happens - payments get lost, transactions don't go through, time slips away. Whatever the reason, we understand. We forgive a missed payment one time for customers with excellent payment history, so you don't face possible service interruptions.

Nevada Power Company d/b/a NV Energy Quarterly Electric Base Tariff and Deferred Energy Accounting Adjustment

Effective **July 1, 2025**, Nevada Power Company d/b/a NV Energy is adjusting its Base Tariff Energy Rate (BTER) and Deferred Energy Accounting Adjustment (DEAA) to reflect changes in energy or purchased power costs the company pays on behalf of its customers. This change will result in a revenue increase of \$66,193,663. Increases or decreases are passed on dollar-for-dollar, with no profit to the company.

The company makes these quarterly filings on February 15, May 15, August 15 and November 15. These adjustments become effective 45 days from the date of filing. The transactions and recorded costs of purchased fuel or purchased power, which are the basis for any quarterly rate adjustment, will be reviewed for reasonableness and prudence in the next proceeding held by the Public Utilities Commission of Nevada to review the annual deferred energy accounting adjustment application.

For additional information, please call Customer Service at the number listed on your bill. To view electric tariffs online, visit nvenergy.com/rates.

Customers may send written comments or protests regarding the rate adjustment to:

Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, NV 89148-7674

or

Public Utilities Commission of Nevada
1150 East William Street
Carson City, NV 89701-3109

Energy Saving Tips

Be Smart. Save Energy.

In warm months, set the thermostat between 78 to 80 degrees when home and 5 to 10 degrees warmer at night or when you are not home.

In cold months, set the thermostat to 68 degrees when home, and then back to 55 to 68 degrees when unoccupied.

Unplug your televisions while on vacation. Most new sets draw power even when turned off.

Install electrical outlet and switch plate insulation.

Vacuum your refrigerator coils underneath and in the back. Check that no obstructions are present as the coils need air space to work.

Make sure food is cooled and covered before it goes into the refrigerator.

Turn off lights, appliances and electronics such as a computer when not in use.

Use LED bulbs instead of incandescent ones. Regular bulbs use most of the electricity to generate heat, so use care when changing bulbs.

Online at nvenergy.com or call (844) 343-3719

At any of our authorized Shop & Pay locations

By phone: (866) 793-0049 (debit/credit card)

By mail: PO Box 30150, Reno, NV 89520-3150

Customer Assistance: Office Address- 6226 West Sahara Ave. Las Vegas, NV 89146

If you wish to dispute any bill, charge, or service, please contact NV Energy Customer Service at: (702) 402-5555 or (800) 331-3103 Toll Free 24/7, excluding holidays we will promptly investigate the matter However, to avoid termination of service, all charges must be paid during the investigation period. If you are not satisfied with our final decision, you may contact the Public Utilities Commission (702) 486-2600, Online at puc.nv.gov or at 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

Additional Information

Understanding Your Bill: Your bill has a lot of information and terms you may not have heard before. For definitions of all charges and taxes, please visit www.nvenergy.com/home/customercare.

Rules and Regulations: Rules, regulations, and rate schedules are available for public inspection at nvenergy.com/rates.

Payments & Due Date: Bills for service are rendered and due monthly by the due date. Your bill becomes past due on the next meter read date, at which time a 1.5% late fee is applied. All payments made by check authorize NV Energy to initiate an electronic debit. Checks will not be returned and funds may be withdrawn the same day. Please make checks payable to NV Energy.

Payment Arrangements: If you have difficulty making a payment, we are here to help. Give us a call so we can review all the options available to assist you.

Interruption in Service: NV Energy may issue a termination of service notice and may require a security deposit for delinquent payments.

Good Pay Forgiveness: Life happens - payments get lost, transactions don't go through, time slips away. Whatever the reason, we understand. We forgive a missed payment one time for customers with excellent payment history, so you don't face possible service interruptions.

SOURCES OF ENERGY

Annually, Nevada Power Company d/b/a NV Energy generates approximately 65 percent of the electricity needed to supply our customers. The balance of power used to serve our customers is purchased from the “grid,” a transmission network connected to various generating facilities in the Western United States. Electricity, when purchased in this way, cannot be labeled as coming from any one particular source. The following table represents our average fuel mix from both our own generation and the power purchased to serve you for the 12-month period ending September 30, 2025.

ENERGY SOURCE	MEGAWATT HOURS	% OF TOTAL
Coal	86,662	0.40%
Natural Gas	14,116,402	65.55%
Oil	388	0.00%
Hydroelectric	438,772	2.04%
Geothermal	1,046,630	4.86%
Solar	5,338,303	24.79%
Nuclear	53,610	0.25%
Wind	394,980	1.83%
Biofuel	51,915	0.24%
Biomass	7,001	0.03%
Other	2,674	0.01%
Total	21,537,337	100.00%

EMISSIONS OF ENERGY SOURCES

Like you, we care about the environment and continuously strive to operate all our facilities at less than permitted emission limits approved by the regulatory authorities (U.S. Environmental Protection Agency, Nevada Division of Environmental Protection and Clark County Department of Air Quality Management). The provided emissions data is derived from actual NV Energy reported emissions and regional averages to account for purchased power.*

SPECIFIC EMISSION TYPE	POUNDS PER MEGAWATT-HOUR
High-level Radioactive Waste	N/A
Sulfur Dioxide	0.16
Carbon Dioxide	1,091.64
Carbon Monoxide	0.03
Particulate Matter	0.02
Volatile Organic Compounds	0.00
Oxides of Nitrogen	0.50
Heavy Metals	<0.01

*The above tables are calculated in compliance with Nevada Administrative Code, NAC 704.2785. Company data is based on a 12-month period ending September 30, 2025.

POWERFUL PARTNERSHIPS TO SAVE ENERGY AND MONEY

PowerShift by NV Energy values powerful partnerships – that’s why we work closely with our customers to help you better manage your energy use and save money on monthly utility bills.

Visit **nvenergy.com/powershift**
for energy efficiency tips
and ways to save.

POWERSHIFT PRODUCTS AND SERVICES

Want to know how you're using energy? It's easy and convenient with our free online home energy assessment. Just log in to your NV Energy MyAccount at nvenergy.com, expand the My Energy Use by Appliance tile and click on Ways to Save. Select the Edit Home Profile button and fill out the short assessment. You'll get personalized, timely information about your energy use along with money-saving tips you can use all year long.

PowerShift also offers free smart thermostats and in-home energy assessments, along with qualifying discounts and incentives that help our customers increase the comfort of their home. Those customers who meet income-eligibility guidelines can qualify to have their old, inefficient refrigerator, electric clothes dryer and more replaced. And, as Nevadans continue to embrace electric vehicles and solar energy, we provide resources to support a sustainable energy environment for generations to come. For more information and details on all the ways you can save, visit nvenergy.com/powershift.

TIPS FOR RECYCLING AND DISPOSING ELECTRONIC WASTE

Did you know that your energy-efficient Compact Fluorescent Lamps (CFLs) and electronic waste, like computers, televisions, DVD players and cell phones, could contain materials potentially hazardous to the environment? Electronic waste is one of the fastest growing segments of our nation's waste stream; however, the good news is that many of these products can be reused, refurbished, or recycled.

CFLs can be recycled for free at any Home Depot and most Lowe's stores throughout the United States. The stores maintain drop-off bins at the customer service desk at each location.

Since many electronic wastes can be reused or refurbished, they can be donated to select organizations or can be given to stores that refurbish electronics. If your electronics cannot be refurbished or reused, then they should be recycled. Your local waste service company can provide further information regarding the safe handling of these materials.

The website nevadarecycles.nv.gov also provides information about electronic recycling and offers some options right here in our state. Further information is also provided at epa.gov/recycle.

ENERGY ASSISTANCE SOURCES

The State of Nevada **Energy Assistance Program** (EAP) can help low-income customers pay their energy bills. To qualify, you must be a residential customer and meet certain income guidelines. To find out if you qualify or for more information about EAP, call (702) 486-1404 or visit dwss.nv.gov.

The Nevada Housing Division has available a **Weatherization Assistance Program** that uses a network of sub-grantees to conduct onsite audits to assess the need for the installation of energy saving measures in low-income households. For more information about the Weatherization Assistance Program and/or to determine if you may qualify, visit their website at housing.nv.gov.

Project REACH is funded by NV Energy's Foundation and is administered by the United Way of Southern Nevada. The energy assistance program is provided to residential customers who meet income guidelines and are age 62 or older. Project REACH is provided to help pay a past due energy bill once during a 12-month period. Call (702) 402-5200 or visit our website at nvenergy.com/assistance for guidelines. Project REACH is available until funds are exhausted.

If you have difficulty making a payment, contact us at the telephone number shown on your bill. We may be able to make **payment arrangements** with you depending upon several factors, including your past credit history.

Another payment option for residential customers is **Equal Pay**. We'll take your average power usage and divide it into equal monthly payments, so you'll know in advance what your bill will be each month. Call Customer Service at (702) 402-5555 or visit nvenergy.com/equalpay.

If anyone residing at this address is either disabled or 62 years of age or older, please contact the telephone number shown on your bill so we can update your account information.

Nevada Power Company d/b/a NV Energy Quarterly Electric Base Tariff and Deferred Energy Accounting Adjustment

Effective **January 1, 2026**, Nevada Power Company d/b/a NV Energy is adjusting its Base Tariff Energy Rate (BTER) and Deferred Energy Accounting Adjustment (DEAA) to reflect changes in energy or purchased power costs the company pays on behalf of its customers. This change will result in a revenue increase of \$81,769,705. Increases or decreases are passed on dollar-for-dollar, with no profit to the company.

The company makes these quarterly filings on February 15, May 15, August 15 and November 15. These adjustments become effective 45 days from the date of filing. The transactions and recorded costs of purchased fuel or purchased power, which are the basis for any quarterly rate adjustment, will be reviewed for reasonableness and prudence in the next proceeding held by the Public Utilities Commission of Nevada to review the annual deferred energy accounting adjustment application.

For additional information, please call Customer Service at the number listed on your bill. To view electric tariffs online, visit nvenergy.com/rates.

Customers may send written comments or protests regarding the rate adjustment to:

Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, NV 89148-7674

or

Public Utilities Commission of Nevada
1150 East William Street
Carson City, NV 89701-3109

The chart below reflects the adjustment for the average monthly bill for each customer class. Actual changes to individual customers' bills will vary depending on the level of consumption.

IMPACT TO CUSTOMERS AS OF JANUARY 1, 2026

Rate Class	Monthly Percent Change	Monthly Increase/ (Decrease)
Residential (RS)	3.12%	\$4.24
Residential Multi-Family (RM)	3.49%	\$2.72

Notice of General Consumer Sessions

Customers of NV Energy are invited to a General Consumer Session conducted by the Public Utilities Commission of Nevada (PUCN). Customers are given an opportunity to appear and be heard on any topic concerning a public utility regulated by the PUCN. Public comments may be limited to three (3) minutes per person at the discretion of the Commission.

If within 15 minutes after the start of the Consumer Session no member of the public has appeared to participate or comment, the Consumer Session may be adjourned at the discretion of the Commission. Representatives of the utilities and the PUCN will be available to answer questions. For details, call the PUCN in northern Nevada at (775) 684-6101 or in southern Nevada at (702) 486-7210.

THE SESSIONS WILL BE HELD:

WASHOE COUNTY

Thursday, August 21, 2025 at 1 p.m. and 6 p.m.
Washoe County Commission Chambers
1001 E. Ninth St., Building A
Reno, NV 89512

CLARK COUNTY

Monday, August 25, 2025 at 1 p.m. and 6 p.m.
Public Utilities Commission of Nevada
9075 W. Diablo Dr., Suite 250 (Hearing Room A)
Las Vegas, NV 89148

ELKO COUNTY

Wednesday, August 27, 2025 at 6 p.m.
Elko County Commission Chambers
Nannini Administration Building
540 Court St., Suite 102
Elko, NV 89801

Avoid Summer Scams

Utility scams often increase in the summer, when customers rely on power for air conditioning in the hotter months and are more likely to fall prey to scare tactics. We care about your safety and urge you to learn the warning signs of a utility scam. Scammers often use "spoofing" to replicate NV Energy's phone number and recordings. You should know we will never contact you in any manner to demand immediate payment and threaten immediate disconnection. Never give your personal information to anyone. Instead, call us directly to discuss your account and report a scam. Visit [nvenergy.com/scam](https://www.nvenergy.com/scam) for more information.

Smart Thermostat Programming Tips

Set a higher temperature when away: Program your thermostat to increase the temperature by 7-10°F when you're not home. This can help you save up on cooling costs.

Set your thermostat at 78°F: Maintaining a summer temperature of 78°F strikes a balance between comfort and efficiency. Using fans and other cooling methods can enhance comfort and save approximately 3% on energy costs for each degree the temperature is increased.

Use a gradual schedule: Instead of making large temperature changes, adjust the temperature gradually. For example, set it to cool down just before you wake up and warm up slightly when you leave for work.

Utilize "away" mode: If your thermostat has an "Away" mode, use it to automatically adjust the temperature when no one is home. This can prevent unnecessary cooling and reduce energy consumption.

Optimize night settings: Set a slightly higher temperature at night. Using fans can help you feel cooler without lowering the thermostat too much.

Regular maintenance: Ensure your thermostat and HVAC system are well-maintained. Clean filters and check for any issues to keep your system running efficiently.

By following these tips, you can keep your home comfortable while also saving on energy costs. PowerShift by NV Energy offers a FREE smart thermostat and installation for residential customers. For more information visit nvenergy.com/powershift or call 855-676-9373.

Better Budgeting with Equal Pay

Our Equal Pay budget billing service is not a discount on your energy bill, rather a valuable tool to help you keep control of your energy costs. To start, we calculate your average annual bill to determine your monthly payment amount. After six months, we review your account to make sure you're on track and adjust your payment amount as needed. Monitoring your energy usage and conserving energy where possible is critical to avoiding drastic increases in your monthly payment amount. Visit nvenergy.com/equalpay to get started by seeing your estimated monthly payment amount.

SOURCES OF ENERGY

Annually, Nevada Power Company d/b/a NV Energy generates approximately 64 percent of the electricity needed to supply our customers. The balance of power used to serve our customers is purchased from the “grid,” a transmission network connected to various generating facilities in the Western United States. Electricity, when purchased in this way, cannot be labeled as coming from any one particular source. The following table represents our average fuel mix from both our own generation and the power purchased to serve you for the 12-month period ending March 31, 2025.

ENERGY SOURCE	MEGAWATT HOURS	% OF TOTAL
Coal	91,599	0.41%
Natural Gas	14,590,164	65.95%
Oil	378	0.00%
Hydroelectric	471,236	2.13%
Geothermal	1,076,123	4.86%
Solar	5,380,816	24.31%
Nuclear	59,801	0.27%
Wind	396,783	1.79%
Biofuel	53,734	0.24%
Biomass	7,635	0.03%
Other	2,868	0.01%
Total	22,131,137	100.00%

EMISSIONS OF ENERGY SOURCES

Like you, we care about the environment and continuously strive to operate all our facilities at less than permitted emission limits approved by the regulatory authorities (U.S. Environmental Protection Agency, Nevada Division of Environmental Protection and Clark County Department of Air Quality Management). The provided emissions data is derived from actual NV Energy reported emissions and regional averages to account for purchased power.*

SPECIFIC EMISSION TYPE	POUNDS PER MEGAWATT-HOUR
High-level Radioactive Waste	N/A
Sulfur Dioxide	0.17
Carbon Dioxide	1,110.86
Carbon Monoxide	0.02
Particulate Matter	0.02
Volatile Organic Compounds	0.00
Oxides of Nitrogen	0.52
Heavy Metals	<0.01

*The above tables are calculated in compliance with Nevada Administrative Code, NAC 704.2785. Company data is based on a 12-month period ending March 31, 2025.

POWERFUL PARTNERSHIPS TO SAVE ENERGY AND MONEY

PowerShift by NV Energy values powerful partnerships – that’s why we work closely with our customers to help you better manage your energy use and save money on monthly utility bills.

POWERSHIFT PRODUCTS AND SERVICES

Want to know how you're using energy? It's easy and convenient with our free online home energy assessment. Just log in to your NV Energy MyAccount at **nvenergy.com**, expand the My Energy Use by Appliance tile and click on Ways to Save. Select the Edit Home Profile button and fill out the short assessment. You'll get personalized, timely information about your energy use along with money-saving tips you can use all year long.

PowerShift also offers free smart thermostats and in-home energy assessments, along with qualifying discounts and incentives that help our customers increase the comfort of their home. Those customers who meet income-eligibility guidelines can qualify to have their old, inefficient refrigerator, electric clothes dryer and more replaced. And, as Nevadans continue to embrace electric vehicles and solar energy, we provide resources to support a sustainable energy environment for generations to come. For more information and details on all the ways you can save, visit **nvenergy.com/powershift**.

TIPS FOR RECYCLING AND DISPOSING ELECTRONIC WASTE

Did you know that your energy-efficient Compact Fluorescent Lamps (CFLs) and electronic waste, like computers, televisions, DVD players and cell phones, could contain materials potentially hazardous to the environment? Electronic waste is one of the fastest growing segments of our nation's waste stream; however, the good news is that many of these products can be reused, refurbished, or recycled.

CFLs can be recycled for free at any Home Depot and most Lowe's stores throughout the United States. The stores maintain drop-off bins at the customer service desk at each location.

Since many electronic wastes can be reused or refurbished, they can be donated to select organizations or can be given to stores that refurbish electronics. If your electronics cannot be refurbished or reused, then they should be recycled. Your local waste service company can provide further information regarding the safe handling of these materials.

The website **nevadarecycles.nv.gov** also provides information about electronic recycling and offers some options right here in our state. Further information is also provided at **epa.gov/recycle**.

ENERGY ASSISTANCE SOURCES

The State of **Nevada Energy Assistance Program (EAP)** can help low-income customers pay their energy bills. To qualify, you must be a residential customer and meet certain income guidelines. To find out if you qualify or for more information about EAP, call (702) 486-1404 or visit **dwss.nv.gov**.

The Nevada Housing Division has available a **Weatherization Assistance Program** that uses a network of sub-grantees to conduct onsite audits to assess the need for the installation of energy saving measures in low-income households. For more information about the Weatherization Assistance Program and/or to determine if you may qualify, visit their website at **housing.nv.gov**.

Project REACH is funded by NV Energy's Foundation and is administered by the United Way of Southern Nevada. The energy assistance program is provided to residential customers who meet income guidelines and are age 62 or older. Project REACH is provided to help pay a past due energy bill once during a 12-month period. Call (702) 402-5200 or visit our website at **nvenergy.com/assistance** for guidelines. Project REACH is available until funds are exhausted.

If you have difficulty making a payment, contact us at the telephone number shown on your bill. We may be able to make **payment arrangements** with you depending upon several factors, including your past credit history.

Another payment option for residential customers is **Equal Pay**. We'll take your average power usage and divide it into equal monthly payments, so you'll know in advance what your bill will be each month. Call Customer Service at (702) 402-5555 or visit **nvenergy.com/equalpay**.

If anyone residing at this address is either disabled or 62 years of age or older, please contact the telephone number shown on your bill so we can update your account information.

Energy Saving Tips

Be Smart. Save Energy.

In warm months, set the thermostat between 78 to 80 degrees when home and 5 to 10 degrees warmer at night or when you are not home.

In cold months, set the thermostat to 68 degrees when home, and then back to 55 to 68 degrees when unoccupied.

Unplug your televisions while on vacation. Most new sets draw power even when turned off.

Install electrical outlet and switch plate insulation.

Vacuum your refrigerator coils underneath and in the back. Check that no obstructions are present as the coils need air space to work.

Make sure food is cooled and covered before it goes into the refrigerator.

Turn off lights, appliances and electronics such as a computer when not in use.

Use LED bulbs instead of incandescent ones. Regular bulbs use most of the electricity to generate heat, so use care when changing bulbs.

Online at nvenergy.com or call (844) 343-3719

At any of our authorized Shop & Pay locations

By phone: (800) 253-8084 (debit/credit card)

By mail: PO Box 30150, Reno, NV 89520-3150

Customer Assistance: Office Address- 6226 West Sahara Ave. Las Vegas, NV 89146

If you wish to dispute any bill, charge, or service, please contact NV Energy Customer Service at: (702) 402-5555 or (800) 331-3103 Toll Free 24/7, excluding holidays we will promptly investigate the matter However, to avoid termination of service, all charges must be paid during the investigation period. If you are not satisfied with our final decision, you may contact the Public Utilities Commission (702) 486-2600, Online at puc.nv.gov or at 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

Additional Information

Understanding Your Bill: Your bill has a lot of information and terms you may not have heard before. For definitions of all charges and taxes, please visit www.nvenergy.com/home/customercare.

Rules and Regulations: Rules, regulations, and rate schedules are available for public inspection at nvenergy.com/rates.

Payments & Due Date: Bills for service are rendered and due monthly by the due date. Your bill becomes past due on the next meter read date, at which time a 1.5% late fee is applied. All payments made by check authorize NV Energy to initiate an electronic debit. Checks will not be returned and funds may be withdrawn the same day. Please make checks payable to NV Energy.

Payment Arrangements: If you have difficulty making a payment, we are here to help. Give us a call so we can review all the options available to assist you.

Interruption in Service: NV Energy may issue a termination of service notice and may require a security deposit for delinquent payments.

Good Pay Forgiveness: Life happens - payments get lost, transactions don't go through, time slips away. Whatever the reason, we understand. We forgive a missed payment one time for customers with excellent payment history, so you don't face possible service interruptions.

This is what we do
NV Energy.

SPRING 2026

The Benefits of Solar, No Panels Required

NV Energy's Expanded Solar Access Program (ESAP) provides solar energy to customers who, due to income limitations, are unable to install a private solar system at their residence. This clean energy is served through a mix of utility-scale solar and community based solar resources. ESAP participants are guaranteed a lower rate for energy consumption than the standard rate. Applications are accepted April 1 through May 31, 2026. Visit nvenergy.com/esap to see if you qualify and to apply.

Preparing for Fire Season

As we head into spring and temperatures begin to warm, the risk of wildfire also starts to increase. NV Energy remains committed to keeping our communities safe through our Power Safe NV program. We've strengthened our system with year-round wildfire mitigation work, including enhanced inspections, targeted vegetation management, and upgrades in high-risk areas to help improve resilience ahead of fire season.

Just as NV Energy prepares, we encourage customers to take steps toward their own seasonal readiness:

- **Update your contact preferences in MyAccount** to ensure you receive important safety and outage alerts. Visit nvenergy.com/myaccount to review your preferences.
- **Enroll in the Green Cross program**, if applicable, so we are aware of any special medical needs at your home during emergencies. Visit nvenergy.com/greencross to learn more.
- **Learn more about our wildfire mitigation strategies** — including fire season settings, Public Safety Outage Management (PSOM) and emergency de-energization — by visiting nvenergy.com/powersafe.

Even with ongoing improvements and extensive wildfire preparation efforts, extreme weather conditions can still lead to outages. We encourage customers to plan ahead and review helpful tips and resources at nvenergy.com/outageprep.

Stay Connected

We want to ensure you have up to date information about your account, planned work, and outages in your area. Make sure your contact information and communication preferences are set in MyAccount. Not only will you receive outage updates, but you can also customize other information delivered to your account like cost and usage alerts. Log on to **nvenergy.com/myaccount** to update your profile and preferences.

AC Tune-Up

PowerShift's AC Tune-Up program is here to help you stay comfortable and save energy as temperatures rise. Regular AC maintenance helps improve system performance, reduce energy use, and keep summer bills in check. Customers in southern Nevada can connect with participating contractors now, and northern Nevada customers will be able to participate beginning in June. Visit **nvenergy.com/ac** to view the contractor list and get started on your low or no-cost AC Tune-Up.

**GET THE DIRT
BEFORE YOU DIG.
CALL 811.**

Before beginning your spring planting or home improvement projects, call 811 to have utility lines marked. 811 is the official nationwide phone number to call before you dig to locate underground utility lines, including gas pipelines and electric lines. It's free, required by law, and can help prevent damage and possible injury. Learn more about 811 at **nvenergy.com/call811**.

Nevada Power Company d/b/a NV Energy Quarterly Electric Base Tariff and Deferred Energy Accounting Adjustment

Effective **October 1, 2025**, Nevada Power Company d/b/a NV Energy is adjusting its Base Tariff Energy Rate (BTER) and Deferred Energy Accounting Adjustment (DEAA) to reflect changes in energy or purchased power costs the company pays on behalf of its customers. This change will result in a revenue decrease of \$44,375,099. Increases or decreases are passed on dollar-for-dollar, with no profit to the company.

The company makes these quarterly filings on February 15, May 15, August 15 and November 15. These adjustments become effective 45 days from the date of filing. The transactions and recorded costs of purchased fuel or purchased power, which are the basis for any quarterly rate adjustment, will be reviewed for reasonableness and prudence in the next proceeding held by the Public Utilities Commission of Nevada to review the annual deferred energy accounting adjustment application.

The chart below reflects the adjustment for the average monthly bill for each customer class. Actual changes to individual customers' bills will vary depending on the level of consumption.

For additional information, please call Customer Service at the number listed on your bill. To view electric tariffs online, visit nvenergy.com/rates.

Customers may send written comments or protests regarding the rate adjustment to:

Public Utilities Commission of Nevada
9075 West Diablo Drive, Suite 250
Las Vegas, NV 89148-7674

or

Public Utilities Commission of Nevada
1150 East William Street

Average Daily Electric Usage

Last Year	vs.	This Month
29	Days Billed	29
2,109.5	kWh per Day	1,793.1
Cost per day this month:		\$182.54

Usage in total electric kilowatt hours

Meter Information

Please note that when manually calculating your usage, your values may differ from your billing statement by as much as your multiplier number. This difference is due to the rounding down of your previous and current usage amounts during our billing process.

If NV Energy is unable to read your meter because of circumstances beyond control, you may be billed based on estimated usage for that billing period.

Type	Service Period	Bill Days	Previous Read	Current Read	Mult.	Usage
Meter Number: AA034564104

Energy Saving Tips

Be Smart. Save Energy.

In warm months, set the thermostat between 78 to 80 degrees when home and 5 to 10 degrees warmer at night or when you are not home.

In cold months, set the thermostat to 68 degrees when home, and then back to 55 to 68 degrees when unoccupied.

Unplug your televisions while on vacation. Most new sets draw power even when turned off.

Install electrical outlet and switch plate insulation.

Vacuum your refrigerator coils underneath and in the back. Check that no obstructions are present as the coils need air space to work.

Make sure food is cooled and covered before it goes into the refrigerator.

Turn off lights, appliances and electronics such as a computer when not in use.

Use LED bulbs instead of incandescent ones. Regular bulbs use most of the electricity to generate heat, so use care when changing bulbs.

At any of our authorized Shop & Pay locations

By phone: (800) 253-8084 (debit/credit card)

By mail: PO Box 30150, Reno, NV 89520-3150

Customer Assistance: Office Address- 6226 West Sahara Ave. Las Vegas, NV 89146

If you wish to dispute any bill, charge, or service, please contact NV Energy Customer Service at: (702) 402-5555 or (800) 331-3103 Toll Free 24/7, excluding holidays we will promptly investigate the matter However, to avoid termination of service, all charges must be paid during the investigation period. If you are not satisfied with our final decision, you may contact the Public Utilities Commission (702) 486-2600, Online at puc.nv.gov or at 9075 West Diablo Drive, Suite 250, Las Vegas, Nevada 89148.

Additional Information

Understanding Your Bill: Your bill has a lot of information and terms you may not have heard before. For definitions of all charges and taxes, please visit www.nvenergy.com/home/customercare.

Rules and Regulations: Rules, regulations, and rate schedules are available for public inspection at nvenergy.com/rates.

Payments & Due Date: Bills for service are rendered and due monthly by the due date. Your bill becomes past due on the next meter read date, at which time a 1.5% late fee is applied. All payments made by check authorize NV Energy to initiate an electronic debit. Checks will not be returned and funds may be withdrawn the same day. Please make checks payable to NV Energy.

Payment Arrangements: If you have difficulty making a payment, we are here to help. Give us a call so we can review all the options available to assist you.

Interruption in Service: NV Energy may issue a termination of service notice and may require a security deposit for delinquent payments.

Good Pay Forgiveness: Life happens - payments get lost, transactions don't go through, time slips away. Whatever the reason, we understand. We forgive a missed payment one time for customers with excellent payment history, so you don't face possible service interruptions.
